

Lead-Free Technology.

Yes We Can.

The transition to lead-free processing is more than just a movement, it's a reality. And MacDermid Electronics Solutions has you completely covered. From oxide to final finish, from copper plating to interconnect, our technologies are already used to produce millions of lead-free circuit boards every day, enabling you to drop in any of our proven solutions right now, without having to worry about performance later.

When you want to be ahead of the curve in lead-free processing, count on the company that says "Yes We Can." MacDermid.

Metallization • Circuit Formation • Imaging Systems • Final Finishes • Interconnect • Advanced Technologies
